Description

Personalizing coffee as often as you want has never been easier. Choose from short or long, try a strong or extra mild aroma, enjoy it piping hot, medium or low temperature. The stainless steel Cappuccino System device is ideal to produce a rich, creamy froth for great cappuccinos. The Thermoblock allows granting the espresso at the ideal and constant temperature.
The improved control panel allows you to prepare any kind of coffee, merely by pressing a button. The simple rotation of the knob lets you increase or decrease the coffee aroma intensity. By the pressure of simple buttons, you can choose among short or long coffee. The machine can be used with either coffee beans or ground coffee. You can prepare two cups of coffee with a single brewing.
