Description

The NVIDIA Quadro P620 combines a 512 CUDA core Pascal GPU, large onboard memory and advanced display technologies to deliver amazing performance for a range of professional workflows. The ultrafast GPU memory enables the creation of complex 2D and 3D models and a flexible single-slot, low-profile form factor makes it compatible with even the most space and power-constrained chassis. Support for up to four 4K displays (4096x2160 @ 60 Hz) with HDR color gives you an expansive visual workspace to view your creations in stunning detail. Whether you're developing revolutionary products or telling spectacularly vivid visual stories, Quadro gives you the performance to do it brilliantly.
