Description

Discover a truly immersive viewing experience with the Samsung monitor curved more deeply than any other. Wrapping around your field of vision like your local iMax theater screen, the 1800R screen - with its 1800mm radius of arc for greater curvature - creates a wider field of view, enhances depth perception, and minimizes peripheral distractions to draw you deeper in to your content. So whether it is an online movie, a favorite TV show, or a pulse-racing game, Samsung's deeper screen curve will fully immerse you in all your multi-media content.
