

Arozzi Arena , Straight, Metal, Red, 80 kg, 1600 mm, 820 mm

1600x820x810mm - Height adjustable - cable management

Group	Furniture
Manufacturer	Arozzi
Manufacturer item no.	ARENA-RED
EAN/UPC	0769498677605

Description

Gaming takes center stage in Arozzi's Arena—the all new gaming desk.

Its huge 14 square feet (1.31 sq. meters) of rock solid surface and custom mouse pad to cover the full space liberates you to game with new intensity. Arena is a completely new design, developed by our Swedish design team with gamers to maximize play and comfort. The 160cm (5' 3") width allows for three large monitors to envelop you in the game environment. The 82 cm (2' 8 1/4") depth gives you a huge field of play for your mouse, keyboard or other devices. And it all fits cleanly thanks to Arena's unique cable management scheme.

Arena's use of high density, solid construction materials means that gamers will have a stable, placid surface to work with allowing for lightning fast responses and comfort. The customized mouse pad covers 100% of the surface and adheres tightly to the desktop with special materials. The substantial all-metal base supports it all firmly and is user adjustable for height, further enhancing comfort.

The Arena has a myriad of other features which show the careful attention to detail of Arozzi's Swedish design team and their immersion into the needs of gamers around the world. Those features include the design of the custom mouse pad which has a microfiber cloth surface which is water-resistant and machine washable. The mousepad's edges are stitched and the pad is 5 mm thick to maximize user comfort. Finally, the whole mousepad weighs an impressive seven pounds (3.2 kg) which together with the non-slip underside means it is impervious to any random movement over the surface.

Arena is available in five attractive colors to suit the tastes or needs of any gamer; red, blue, green, white and black. Finally, once assembled Arena is extremely solid and stable. Prior to assembly the desk top and frame are divided into three sections to fit into packaging that is easily transportable by package couriers such as UPS, DHL, etc

Main features

General

Type	Straight
