

ASUS TUF Gaming GT501 - Tower

ATX - windowed side panel - black - USB/Audio

Group	Cases
Manufacturer	ASUS
Manufacturer item no.	90DC0012-B49000
EAN/UPC	4718017105002

Description

TUF Gaming GT501 is crafted from up to 1.5mm-thick galvanized steel for enhanced durability in understated industrial style, and has a special coating that resists scuffs and scratches. It's fitted with two ergonomic, woven-cotton handles, rigorously tested to support up to 30kg - so it's both easy and safe to transport your completed build.

With a full-height, smoked-glass side panel, TUF Gaming GT501 lets you show off your build from top to bottom - so your components, customizations and Aura illuminations are all clearly visible. This panel is tempered for strength, and hinged at the bottom for opening ease.

Fitted RGB-enabled fans enable to work with the Aura-supported motherboards. With exclusive ASUS Aura Sync lighting technology, TUF Gaming GT501 provides ambient lighting that can be synchronized with other Aura Sync-enabled components.

TUF Gaming GT501's trio of 120mm Aura Sync RGB fans each contains 11 blades, and deliver high-static-pressure flow for targeted cooling. There's also a high-airflow 140mm PWM fan for wider heat removal. It's also easy to upgrade cooling when you need, with up to seven mounting points for the installation of additional fans.

TUF Gaming GT501 makes PC DIY easier than ever. Integrated cable-management ensures neatness, while pre-installed physical supports for the motherboard eliminates additional costs and mean you're ready to build from the get-go. It all adds up to design with you in mind for an unrivaled PC-building experience.

Removable dust filters effectively prevent airborne particulates from entering TUF Gaming GT501, keeping your system's internals looking as good as new for longer. The top and front filter are magnetic for a tight seal, and quick removal and cleaning, while the lower dust-trap is easily slid in and out to enable fast maintenance.

Main features

Product Description	ASUS TUF Gaming GT501 - tower - ATX
Product Type	System cabinet
Form Factor	Tower
Windowed Side Panel	Yes

I/O Connectors	2 x USB 3.1 Gen 1 X headphones X microphone
Supported Motherboards	ATX, microATX, Mini-ITX, Extended ATX, enhanced extended ATX
System Cabinet Features	Supports 120/140/240/280/360 mm radiator in front panel, supports 120/140/240/280/360 mm radiator in top, supports 120/140 mm radiator in rear, ASUS Aura Sync RGB illumination
Dimensions (WxDxH)	21 cm x 54.5 cm x 55.2 cm
Weight	10.5 kg

Extended details

General	
Form Factor	Tower
Windowed Side Panel	Yes
Max Mainboard Size	ATX
Supported Motherboards	ATX, microATX, Mini-ITX, Extended ATX, enhanced extended ATX
Internal Bays Qty	7
Colour	Black
Cooling System	Front: 120 mm fan x 3 / 1200 rpm / RGB fan Rear: 140 mm fan / Pulse-width modulation (PWM) support
CPU Cooler Max Height	180 mm
Video Card Max Length	420 mm
Power Supply Max Length	240 mm
System Cabinet Features	Supports 120/140/240/280/360 mm radiator in front panel, supports 120/140/240/280/360 mm radiator in top, supports 120/140 mm radiator in rear, ASUS Aura Sync RGB illumination
Expansion / Connectivity	
Expansion Bays	4 (total) / 4 (free) x internal - 2.5" / 3.5" shared 3 (total) / 3 (free) x internal - 2.5"
Expansion Slots	7
Interfaces	2 x USB 3.1 Gen 1 Headphones Microphone
Power	
Max Supported Qty	1
Dimensions & Weight	
Width	21 cm
Depth	54.5 cm
Height	55.2 cm
Weight	10.5 kg
