Description

ROG Throne Qi is a gaming headset stand with wireless charging designed to keep your Qi-enabled smartphone or other compatible devices ready for action and your gaming area organized. A built-in ESS DAC and amplifier upgrades your headphone audio experience, delivering immersive gaming audio, while customizable 360-degree RGB lighting effects that synchronize with other Aura Sync accessories enable a stunning, unified lighting experience. ROG Throne Qi also features an ultrafast, two-port USB 3.1 hub with power delivery, rounding it out as a complete solution for organizing and upgrading your gaming setup.
