### Description

The PT-P700 is an easy-to-use, full-featured label maker. It's perfect for multi-user offices looking for simple connectivity and the ability to quickly create a wide variety of professional labels using a computer. Although it's great for individual label printing, it's particularly well-suited to multi-label printing, thanks to its fast print speeds, "repeat printing" capability, and an automatic cutter. And since no software or driver installation is required, it's great for sharing, or in restrictive IT environments.
