### Description

LUCIA puts a whole new light on large format printing. Designed to deliver even greater image quality to the most exacting standards, LUCIA is a newly developed pigment ink featured in Canon's large format printers (LFP). Providing exceptional image quality and durability, the new inks increase media compatibility as well as reduce metamerism.

### Main features

|                     |                                                              |
|---------------------|--------------------------------------------------------------|
