Description

Cooler Master presents the Mobius 120P ARGB 3- Pack Fan Kit, the tripled version of our high performance Mobius 120P ARGB fan. The Mobius 120P ARGB features our innovative ring blade design with interconnecting fan blades that eliminate vibration for improved stability, a angled inner frame rim with chamfered side vents for boosted airflow, a fine-tuned sound output below 6dB, and an A1 mini LED controller for fine-tuning your settings. Our Mobius series fans are engineered for the perfect balance of quiet operation and unmatched cooling performance.

Ring blade design

Interconnecting fan blades feature a reinforced and rigid structure, eliminating vibration for stable fan rotation.

Accelerated pressure air vents

An angled inner frame rim with chamfered side vents boost airflow draw, maximizing air pressure and reducing dead air.

Loop dynamic bearing

A loop dynamic bearing design utilizes thick oil coating and lubrication to allow for stable performance.

A1 Mini LED controller

Fine tune the Mobius lighting with a compact, easy-to-use mini controller.
