

# Cooler Master MasterLiquid 360 Atmos ARGB

Processor liquid cooling system - Radiator Size: 360 mm - (for: LGA1700 - LGA1200 - LGA1151 - LGA1150 - LGA1155 - LGA1156 - AM4 - AM5) - 120 mm - black

## Description

Cooler Master MasterLiquid 360 Atmos ARGB - Processor liquid cooling system - Radiator Size: 360 mm - (for: LGA1700, LGA1200, LGA1151, LGA1150, LGA1155, LGA1156, AM4, AM5) - 120 mm - black

## Main features

|                             |                                                                                                                        |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------|
| Product Description         | Cooler Master MasterLiquid 360 Atmos ARGB - processor liquid cooling system                                            |
| Product Type                | Processor liquid cooling system                                                                                        |
| Package Content             | LED controller, ARGB splitter, fan cable splitter, 2 x tube clips                                                      |
| Colour                      | Black                                                                                                                  |
| Compatibility               | LGA1700 Socket, LGA1200 Socket, LGA1151 Socket, LGA1150 Socket, LGA1155 Socket, LGA1156 Socket, Socket AM4, Socket AM5 |
| Liquid Cooler Radiator Size | 360 mm                                                                                                                 |
| Fans Qty                    | Triple                                                                                                                 |
| Fan Diameter                | 120 mm                                                                                                                 |
| Fan Height                  | 25 mm                                                                                                                  |
| Fan Bearing                 | Loop dynamic bearing                                                                                                   |
| Rotation Speed              | 690-2500 rpm                                                                                                           |
| Air Flow                    | 70.7 cfm                                                                                                               |
| Noise Level                 | 27.2 dBA                                                                                                               |
| Power Connector             | 4-pin fan connector                                                                                                    |
| Rated Voltage               | 12 V                                                                                                                   |
| Features                    | ARGB Gen 2, customisable pump top cover, Dual-Chamber Design, Pulse-width modulation (PWM) support                     |
| Weight                      | 1.79 g                                                                                                                 |
