Coffee machine with cappuccinatore - 19 bar - silver

Group	Coffee Machines
Manufacturer	De Longhi
Manufacturer item no.	EN 560.S
EAN/UPC	8004399332645

### Description

Discover the perfect creamy latte made simply in seconds with advanced automatic frothing system by De'Longhi. The Lattissima Touch is the "must-have" one-touch system for latte lovers. With 6 one-touch button recipes, the Lattissima Touch offers an exceptional convenience to enjoy, at home, the pleasure of decadent barista-style recipes. Quickly prepare in an instant incomparable creamy latte, latte macchiato, cappuccino, espresso, lungo, or warm milk froth suitable for many coffee and milk recipes. Adjust the milk froth texture regulator knob to vary froth texture and satisfy every taste. The sliding drip tray allows for the use of different cup or glass sizes and after use, the milk container can be put into the fridge or disassembled and cleaned in the dishwasher. The 19-bar high-performance pump is the key to perfectly extracting the delicate flavor and premium aromas of each coffee capsule during the brewing process and creating an incomparably dense crema. The fast heat-up system reaches the ideal temperature in just 40 seconds. The intuitive descaling function alerts you according to the programmed water hardness setting (5 levels) and the pluggable descaling pipe makes the descaling process even easier. The energy-saving function automatically switches off machine after 9 minutes of inactivity (programmable).
