Description

Enjoy a steaming bowl of soup with fresh vegetables. It's child's play with the soup maker. Pop the vegetables into the soup maker, switch it on, and your soup will be ready in just 20 minutes. No more stirring and blending. While you are peeling the potatoes for the main course, the soup maker prepares your starter in no time. The stainless steel appliance has three programmes: blend, chunky and smooth. As well as soup, you can also use it to make jam and even compote. The jug has a capacity of 1.6 l, which equates to around six bowls of soup.
