## Description

UltraChrome PRO ink is based on Epson's famous K3 and HDR ink. It has an aqueous (water-based) all-pigment construction that has been designed for professional and commercial print production. The formulation provides an extended gamut with superior color accuracy and archival level image stability.

## Main features

|                     |                                                     |
