## Description

G.Skill AEGIS - DDR4 - kit - 16 GB: 2 x 8 GB - DIMM 288-pin - 3200 MHz / PC4-25600 - CL16 - 1.35 V - unbuffered - non-ECC

## Main features

|                      |                                                                                                 |
|----------------------|-------------------------------------------------------------------------------------------------|
| Product Description  | G.Skill AEGIS - DDR4 - kit - 16 GB: 2 x 8 GB - DIMM 288-pin - 3200 MHz / PC4-25600 - unbuffered |
| Product Type         | Memory kit                                                                                      |
| Capacity             | 16 GB: 2 x 8 GB                                                                                 |
| Memory Type          | DDR4 SDRAM - DIMM 288-pin                                                                       |
| Upgrade Type         | Generic                                                                                         |
| Data Integrity Check | Non-ECC                                                                                         |
| Speed                | 3200 MHz (PC4-25600)                                                                            |
| Latency Timings      | CL16 (16-18-18-38)                                                                              |
| Features             | Heat sink, dual channel, Intel Extreme Memory Profiles (XMP 2.0), unbuffered                    |
| Voltage              | 1.35 V                                                                                          |
