

Gardena 13325-20, Oscillating water sprinkler, 90 m², Black

Oscillating Sprinkler OS 90

Group	Camping/Outdoor
Manufacturer	Gardena
Manufacturer item no.	13325-20
EAN/UPC	4078500059374

Description

The Oscillating Sprinkler OS 90 from GARDENA helps you reliably water garden plants such as vegetables, flowers and seedlings. This component of the Micro-Drip-System is ideal for watering rectangular areas. In total, you can irrigate between 1 and 90 m². Thanks to the patented Quick & Easy connection technology with integrated symbols and a feedback click as a clearly audible signal in the closed position, installing the sprinkler is very easy. You can remove it just as easily from the 13 mm Connecting Pipe if you want to use the Oscillating Sprinkler elsewhere. With the help of the flexible regulation, you can determine the sprinkling width up to a maximum of 7 m and the spray range up to 13 m. It is even possible to regulate the water flow. In order to adapt to the growth of your plants, you can use an Extension Pipe (Art. No. 13326-20) and thus continue to water from above. The 16 nozzle outlets of the Oscillating Sprinkler are made of soft plastic and can be easily cleaned of limescale deposits with a quick wipe. In addition, the integrated dirt filter ensures that no impurities get into your Oscillating Sprinkler OS 90. Micro-Drip-System. Caring for your plants and every precious drop. Easy, accurate, water and time-saving irrigation.

For rectangular, area-wide irrigation

The Oscillating Sprinkler is ideal for rectangular, area-wide irrigation of plant and flower areas. It can irrigate an area of 1 to 90 m².

Flexible height adjustment with Extension Pipe

Thanks to the separately available Extension Pipe for Spray Nozzles (Art. No. 13326-20), the Micro-Drip-System can grow along with the plants. One pipe is 20 cm long and two Extension Pipes can easily be combined to water growing plants from above.

Adjustable

The sprinkler offers flexible adjustment of the sprinkling width from 0.5 m to a maximum of 7 m, the spray range from 1.5 to 13 m and the water flow rate.

Easy and flexible installation

Thanks to the Quick & Easy connection technology with integrated symbols and a feedback click as a clearly audible signal in the closed position, installation is simple and gives a reliable feeling. The sprinkler is released again just as easily.

Easy and convenient cleaning

The 16 nozzle outlets of the Oscillating Sprinkler are made of soft plastic and are easy to clean with a quick wipe. In addition, a dirt filter is integrated to protect the Oscillating Sprinkler from contamination.
