

Gardena 13330-20, 20 m, 4.6 mm, Black, Grey, 68 pc(s)

Solar-powered irrigation AquaBloom L Set - automatic irrigation system - up to 30 plants

Group	Camping/Outdoor
Manufacturer	Gardena
Manufacturer item no.	13330-20
EAN/UPC	4066407021853

Description

The AquaBloom Set L provides an independent, solar-powered tapless irrigation solution for raised beds, balconies or terraces without water or electricity. Its 3-in-1 unit ensures precise watering. Easy to install in 5 steps, it can water 30 plants with 14 pre-programmed schedules. Flexible placement maximises sunlight and a start delay ensures timely watering.

Independent Solution for effortless plant care

The AquaBloom L offers an independent solution for automatic irrigation, ideal for locations without access to water or electricity. This watering system features an integrated 3-in-1 main unit that combines a pump, controller and solar panel. The innovative design includes a solar panel and battery combination, ensuring an effective watering system, wherever you are.

Easy installation, flexible placement and pre-programmed watering

Experience time-saving watering with the AquaBloom L, designed for effortless use and easy installation. This ready-to-use system can water 30 plants and features a simple 5-step installation process. With 14 pre-programmed watering programmes, you can easily customise your plant care. Flexible placement allows you to maximise sunlight for optimum performance and the start delay function ensures precise timing for watering.

Optimal plant health

The AquaBloom L system ensures optimal water delivery directly where and when needed, promoting plant health and enhancing harvests with effective water use, sensor connection, and dripper output.

Maximise effectiveness

Choose a sunny spot for the AquaBloom L control unit to maximize solar performance. You can hang it from a flowerpot, place it on a table, or mount it to a wall. Ensuring direct sunlight enhances the performance of the solar panel.

Ready-to use

The AquaBloom L Set is ready to use and includes everything you need for precise watering. This kit includes all necessary components, even rechargeable batteries, for hassle-free set up.

Main features

	General
