wired - 3.5 mm jack - black

Group	Audio Equipment
Manufacturer	Kingston
Manufacturer item no.	4P5L1AM#ABB
EAN/UPC	0196188486863

Description

HyperX Cloud Alpha's ground-breaking dual chamber drivers design will give your audio more distinction and clarity by reducing distortion. The dual chambers separate the bass from the mids and highs, allowing optimal tuning for cleaner, smoother sound. The Cloud Alpha headset builds upon HyperX's foundation of signature comfort with premium memory foam, expanded headband and softer, more pliable leatherette. The aluminum frame is built for long-lasting durability and, as requested by players, Cloud Alpha also features a tough, detachable braided cable. The detachable noise-cancellation microphone is certified by Discord and TeamSpeak, ensuring you'll have great team communication. It's multi-platform compatible with in-line audio controls, so serious gamers with a 3.5 mm port will benefit from the bold sound of the Cloud Alpha evolution.
