EAN/UPC	6925281954894

Description

Looking for impressive sound that you can take anywhere? Say no more. The Flip 5 takes sound quality to great heights with an acoustic design. The racetrack-shaped driver with increased cone area and excursion amplifies JBL's classic signature sound, elevating the overall output of the music delivering crisp highs and deep bass.

Like its predecessor, the JBL Flip 5 sports a waterproof, compact design, which means there's no stopping where this speaker can travel. Small enough to pack in a suitcase, bring it to mountaintop soirees and your beach excursions, no matter the weather. Boasting 12 hours of playtime and recharging capabilities via a USB-C charging port means this speaker will be up and running with stronger battery support than ever before. A built-in speakerphone, alongside its stellar and stable Bluetooth connection, lets users make and receive crystal clear calls with the touch of a button.

Main features
