Bluetooth - wireless - wired - 3.5 mm jack - black

Group	Audio Equipment
Manufacturer	Kingston
Manufacturer item no.	HX-HSCAM-GM
EAN/UPC	0740617280302

Description

HyperX Cloud MIX is a versatile gaming-grade wired headset with console connectivity via a 3.5 mm stereo plug (4 pole) and PC compatibility using the dual audio and mic plugs. For media streaming and phone calls, the headset can pair to any Bluetooth ready media device or phone for wireless connectivity on the go.

The flexible detachable gaming mic is TeamSpeak and Discord Certified for clearer game chat. Remove the mic in Bluetooth mode and use the internal built-in mic for a more travel friendly headset for phone calls. It has intuitive onboard audio and mic controls for answering/ending calls and controlling media playback while in Bluetooth mode. This product is ideal for the gamer who wants the stable wired connection for gaming and the Bluetooth option for other entertainment.

With a single 3.5 mm stereo plug (4 pole) and the added convenience of in-line audio control, this is targeted towards PC and console gamers. It has multi-device compatibility, so it also appeals to a more casual audience that will also use the headset in Bluetooth mode for phone calls or streaming music and videos. In addition, it appeals to PC enthusiasts and audio professionals looking for a high-quality build headset with immersive in-game audio and long lasting comfort.
