### Description

The 20 cm Mini-DisplayPort to single link DVI adapter is a small form factor cable that enables connectivity of Lenovo ThinkPads with any monitor with DVI interface, with the help of a Lenovo DVI cable. The mini-DisplayPort interface is a miniaturized version of the popular DisplayPort digital display interface. The mini-DisplayPort to single link DVI adapter is compliant with the DisplayPort 1.2 standard and has a bandwidth of 4.95 Gbps to support crystal clear 1920 x 1200 at 60 Hz display resolution - making it ideal for using any monitor with DVI interface as a secondary display.

### Main features

|                        |                                                                                                                                                                                                        |
