### Description

With the Razer Basilisk Ultimate, victory has never been this personal. As a high-performance wireless gaming mouse that can be tuned to look, play and feel exactly the way you want, the only people running out of options will be your opponents.

25% faster than any other wireless technology available, you won't even realize that you're gaming with a wireless mouse due to its high-speed transmission, lowest click latency, and seamless frequency switching in the noisiest, data-saturated environments.

Have a greater arsenal of commands at your fingertips by mapping your favorite macros and secondary functions via Razer Synapse 3. Like its wired variant, the Razer Basilisk Ultimate includes the signature multi-function paddle.

The Razer Basilisk Ultimate comes with a dial on its underside that lets you tweak the resistance of its scroll wheel to be as smooth or as tactile as you want. With this level of personalization, you'll be able to more accurately perform bunny hops, weapon selects, and other scroll wheel actions.

Bring your settings anywhere and be match-ready in no time. Activate up to 5 profile configurations from its on-board memory or custom settings via cloud storage.
