Description

WET2STRAIGHT WIDE PLATE STRAIGHTENER

A multi-tasking must-have, the Wet2Straight Wide Plate Straightener can cut precious time out of your styling routine.

Simply towel dry your hair and then let the straightener do the rest, taking you straight from the shower, to styled and ready to go – with no need to blow dry. Cutting out the need for a separate hairdryer, it's ideal for on the go, or when you're trying to travel light!

Used in the same way as a straightener, the heated plates vaporize excess water through specifically designed vents, cleverly drying and straightening at the same time.

The extra wide floating plates on the Wet2Straight Wide Plate Straightener allow you to capture even more hair with every pass and ensure an even pressure as you style for snag-free results. The wider plate variation is ideal for those with thicker hair to capture even more strands with each pass and ensure fast results without compromising on style.

The advanced ceramic coated plates are infused with micro conditioners to help control any frizz or flyaway hairs, leaving you with sleek, smooth, healthy looking hair.

With a heat up time of just 15 seconds and 10 temperature settings you can personalise your styling by choosing the ideal setting for your hair type. A turbo boost function even gives you a little extra help when you need it- so why not cut down time styling, but ensure you still get the healthy, glossy look you want?

The Wet2Straight Wide Plate Straightener: For the on-the-go you.

EXTRA WIDE PLATES MAKE TAMING THICK, FRIZZY OR LONGER HAIR EVEN EASIER

Straighten more of your hair with each pass with the extra wide plates on the Shine Therapy Straightener. Whether you're styling thick or extra-long hair, this tool leaves you with smooth, sleek styles every time.

MICRO- CONDITIONERS INFUSED INTO THE ADVANCED CERAMIC COATED PLATES HELP KEEP YOUR HAIR GLOSSY, SOFT AND SMOOTH

With advanced ceramic coated plates infused with micro conditioners containing Moroccan Argan oil with Vitamin E, you can be sure your hair is being cared for, stroke after stroke – leaving you with the sleek, soft hair you've always wanted.
