Vacuum Sealer - 15 l/min - 140W

Group	Household Small Appliances
Manufacturer	ROMMELSBACHER
Manufacturer item no.	VAC 485
EAN/UPC	4001797825209

## Description

This powerful vacuum sealer does also convince a pro. With the convenient handle you can easily open and safely close the appliance without effort. Whether for the private household, for fishermen, hunters or for the use in semi-professional gastronomy - this appliance is flexibly usable. The vacuum sealer is suitable for long-term operation, e. g. a bulk purchase can be processed without intermediate pauses and the harvest from the garden can be packed quickly. The integrated roll compartment (with cutting device) supplies the necessary special foil. The high-performance pump extracts up to 97 % of the air from the special vacuum bags and seals them fully automatically with a firm double sealing seam in only one working step. With two sealing times and two pump rates settable, the vacuuming procedure can be adjusted individually to the food to be processed. For particularly pressure sensitive food, a manual vacuuming and sealing function is available. The illuminated inspection window is especially practical, as you can check the correct bag position in the appliance. With the function "Behälter vakuumieren" (vacuuming of container), even pressure-sensitive or liquid foods can be vacuum packed in special vacuum-sealing containers and thus can be kept fresh for a long time. Vacuuming extends the shelf-life of food up to three to five times - therefore this practical appliance should not be missing in any household! Our tip: you can also use the appliance for preparing foods for Sous Vide Cooking, a trend of the award-winning cuisine.

## Main features

	General
Product colour	Black, Silver
Vacuum sealer functions	Vac seal
Control type	Buttons
Power	140 W
AC input voltage	230 V
Width	440 mm
Depth	260 mm
Height	130 mm

## Extended details
