### Description

The Sigma 30mm 1.4 DC DN Contemporary is a high performance prime with a large aperture of F1.4 designed for APS-C Mirrorless cameras including Sony E mount and Micro Four Thirds. The Contemporary line is the perfect blend of image quality and compact size. The large aperture is great for lowlight and for creating depth of field and its small size makes it highly portable. A stepping motor provides fast and accurate autofocus and is highly useful for video work.

### Main features

|                     |                                   |
|---------------------|-----------------------------------|
| Product Description | Sigma Contemporary - lens - 30 mm |
