Description

Innovative 3.5" tool-free drive bay design minimizes installation/removal with hidden drive bays on the back panel to provide a clean look and improved expansion for liquid cooling components. Modular rack with three trays allows multiple SSD/HDD devices for improved storage capacity. Gain more flexibility for custom cooling components with modular SSD/HDD cage for maximum interior space. Take advantage to include high-end, maximum capacity, cooling allotment without the reduction of GPU length limitations when incorporating liquid cooling expansion for the ultimate in cooling performance.
