Manufacturer item no.	E1965OV1N
EAN/UPC	6972596100539

Description

Amazfit PowerBuds: Hear the Beats
Heart Rate Monitoring During Exercise | Magnetic Sport Ear Hooks | Superior Sound

Precise Heart Rate Monitoring During Exercise.
Heart rate is an important indicator while monitoring exercise, so the Amazfit Powerbuds are equipped with a PPG heart rate sensor to precisely monitor your heart rate and keep you informed of your workout status. You will also get voice notifications when your heart rate exceeds the pre-set warning value, making your workout safer and more effective.

Magnetic Sport Ear Hooks.
Firm & Comfortable, Tailored to Exercise.
The Amazfit Powerbuds shell is made of smooth radium carving texture, bringing a sporty energy to your workout. The unique magnetic split ear hook design enhances the firm fit and stability of the earphones and prevent them from dropping during intense exercise. In daily use, the ear hooks can be removed and kept in the charging case, making them easy to store.

Abundant Power to Give You Full Energy.
The Magnetic Charging Case Brings Total Battery Life to 24 Hours.
The earphones provide 8 hours of play time on a single charge, and coupled with the magnetic charging case, they can function for another 16 hours, meaning you can enjoy up to 24 hours of music on-the-go. Bring more power and longer life to your music.

Professional Sports Sound System. Immersive and Dynamic Sound to Accompany Your Movement.
Amazfit Powerbuds bring stunning sound to your ears through its professional sports sound system, to make exercising more immersive and dynamic. It also has professional functions to escort each movement.

IP55 Water & Dust Resistance. No Fear of Dust, Rain or Sweat.

Excellent water & dust resistance due to integrated design. The components of the Amazfit Powerbuds are effectively protected against damage caused by dust, rain and sweat, keeping you free from worry during workout.

Truly Wireless. All You Have To Do Is Put It On.

After configuration, the Amazfit Powerbuds can automatically connect after removal from the charging case, allowing you to enjoy dynamic music by just putting them on. In-ear sensors with a smart sensing function are also embedded in the compact earbuds, meaning you can wear them to play and take them off to pause.

ENC Dual-Microphone Noise Reduction. Filtering Ambient Noise for HD Calls.

Through ENC dual-microphone noise reduction technology, the Amazfit Powerbuds receive clear sound, effectively inhibit other interruptive ambient sounds, and efficiently reduce noise, making calls clearer.

A Gentle Tap to Operate.

Both earphones can be customized with double-tap and triple-tap touch function, making your use more convenient and effective, and saving you the trouble of pulling out your phone for operations with sweaty and wet hands.

Main features

General	
Product type	Headset
Wearing style	Ear-hook, In-ear
Recommended usage	Sports
Connectivity technology	Wireless
USB connector	USB Type-C
Ear coupling	Intraaural
Headphone frequency	20 - 20000 Hz
Impedance	16 ?
Microphone type	Built-in
Battery type	Built-in battery
Right earpiece battery capacity	55 mAh
Left earpiece battery capacity	55 mAh

Extended details

Ports & interfaces	
Connectivity technology	Wireless
