### Description

The Zebra Z-Select 2000D Removable is a smooth coated direct thermal label that produces black visible light images on all Zebra industrial and desktop printers. The permanent rubber-based adhesive will adhere to most surfaces, and can be used at temperatures as low as -40°C. It is ideal for packaging and labeling promotional products and chilled or frozen products.

### Main features

|                                 |                                                                                    |
