Description

The five-piece set of cookware from the ZWILLING Essence series provides the ideal equipment for people appreciating an appealing look in addition to great functionality. It has been created by Stefan Schöning and is characterised by its beautiful design.

The five pots in this set feature a SIGMA Classic+ base, consisting of a top layer of 18/10 stainless steel, which is neutral in taste, hygienic and easy to clean. The 4mm aluminium core retains heat and distributes it evenly across the entire base up to its edge. The bottom layer is made of magnetic 18/0 stainless steel enabling you to use the pots on induction hobs.

The cast stainless steel handles are particularly comfortable to handle. Glass lids are another practical bonus with this set, allowing you to keep an eye on your cooking. They are tightly fitting ensuring energy-saving cooking with minimal water. Prepare a variety of dishes from small snacks to whole menus with this high-quality and beautiful set of cookware by ZWILLING.
